

BREMNER, P. and MOULE, C. 2020. *Collaboration between universities and the Scottish Institute for Enterprise to ensure students skill sets are fit for the future*. Presented at the 2020 International entrepreneurship educators conference (IEECOnline), 9-11 September 2020, virtual conference [online]. Available from: <https://ieec.co.uk/wp-content/uploads/2020/09/103-Pauline-Bremner-Chris-Moule-no-video.pdf>

Collaboration between universities and the Scottish Institute for Enterprise to ensure students skill sets are fit for the future.

BREMNER, P. and MOULE, C.

2020

Collaboration
between universities
and the Scottish
Institute for Enterprise
to keep student's skill
sets fit for the future

Chris Moule
Head of Entrepreneurship
and Innovation Group

Dr Pauline A M Bremner
Teaching Excellence Fellow

Outline of case study

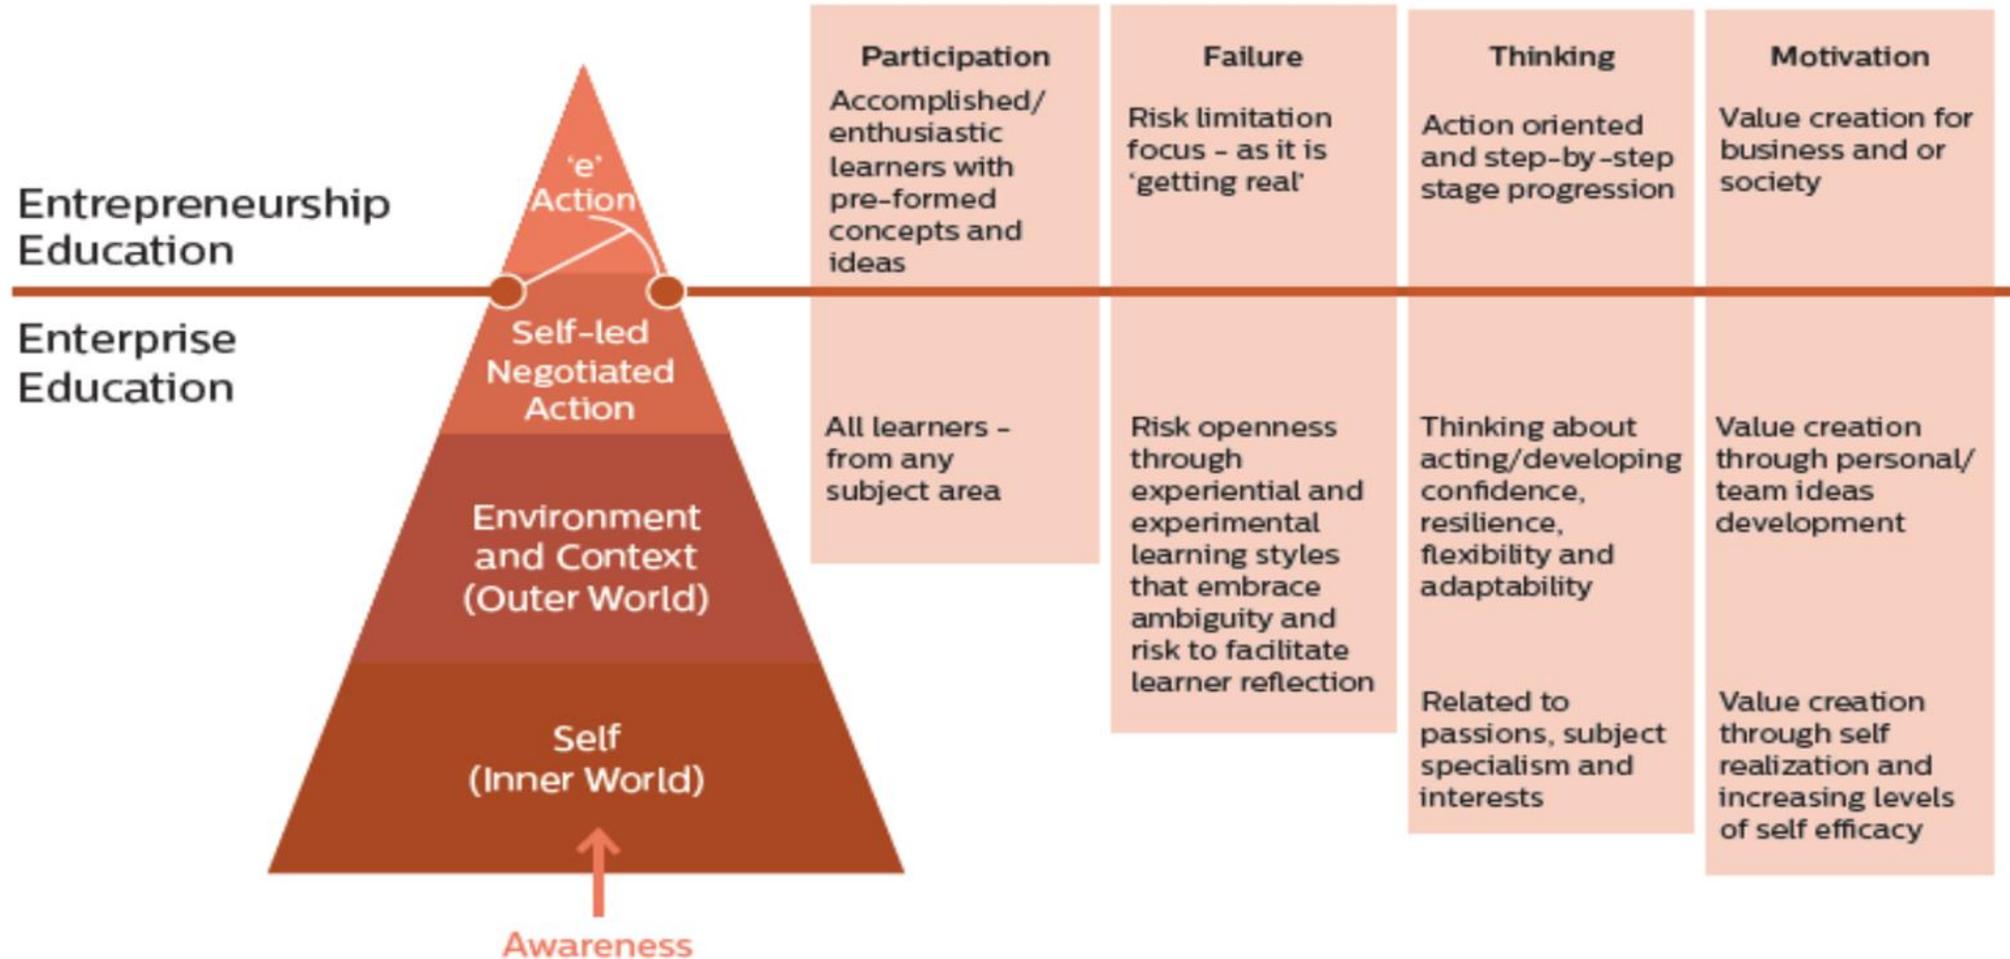

- SISA Programme
- How we have embedded it into RGU
- Benefits of this Collaboration

Keeping students' skills sets work ready is a challenge for all universities within their degree programmes.

INNOVATION CATALYSTS

SISA LEVEL 3: 18

INNOVATION CHAMPIONS

"I learned the importance of working with a culturally diverse group. My group consisted of a range of individuals from the UK and Europe. Each had a perspective and experience which gave us an encompassing viewpoint for the task. Looking to the future this represents how globalised the modern world is; and how significant and important it is for a business to consider multiple cultures and ideologies, especially when considering expanding. This project has allowed me to consider different cultures and viewpoints. Applying this to my future business will allow me to avoid potential risks in this globalised world."

- 4th Year Student, Robert Gordon University
