# ENHANCING FOR **IMPACT**

RGU'S ANNUAL LEARNING AND TEACHING CONFERENCE

## DEVELOPING AN EMERGENCY CONTACT SCHEME FOR STUDENT WELLBEING

*Dr Sarah Henderson and Dr Katrina Forbes-McKay  
School of Applied Social Studies*

# STUDENT WELLBEING AND SUPPORT NEEDS STUDY

## *BACKGROUND*

- There is concern over the levels of wellbeing and mental health issues experienced by university students (Auerbach et al., 2018; HESA, 2022)
- This has been exacerbated by COVID-19 and the resultant lockdown (Sahu, 2020; Kafka, 2020)
- Yet students often do not access support for mental health issues (Rosenthal and Wilson, 2008)

## *AIMS*

- To measure levels of mental wellbeing and social support amongst University students
- To explore their views on an opt-in emergency contact scheme, the current provision of wellbeing support, and the barriers to accessing such support
- To develop a wellbeing strategy to help support students, build resilience and improve the student experience

# EMERGENCY CONTACT SCHEME

- A university emergency contact scheme may be an effective safeguarding tool that is generally acceptable to students (Neves and Hillman, 2019; Linton et al., 2022)
- Would this be effective in RGU?

## *AIMS*

- To explore student perspectives on the introduction of an emergency contact scheme
- The format the scheme should take
- The circumstances in which it should be used
- The reasons why students would be uncomfortable engaging with the scheme.

# METHOD

*Design: An online Survey design was employed and distributed via JISC.*

*Sample: 113 students from SASS, RGU*

- 14 (12.4%) male, 95 (84.1%) females, 2 (1.8%) Selected “Prefer not to say”, 1 (0.9%) identified as other and 1 nonresponse.
- 77 (68.1%) undergraduates and 36 (31.9%) postgraduate students
- 56 (49.6%) from BA (Hons) Applied Social Sciences, 32 (28.3%) MSc Applied Psychology, 15 (13.3%) Social Work (BA FT/DL), 7 (6.2%) unknown UG degree, 3 (2.7%) prefer not to say/nonresponse
- Aged between 17 to 60 (Mean 28.18, SD 11.14)

*Materials:*

- *Questions on current support and opinions on an emergency contact scheme*

# RESULTS

## *DO YOU THINK THE SCHEME IS A GOOD IDEA?*

- 108 (95.6%) students were in favour of the scheme
- Of those opposed; 3 (2.7%) were undergraduate students, 2 (1.8%) were postgraduate

## *REASONS FOR OPPOSITION*

May cause more problems

Removes agency/infantilising

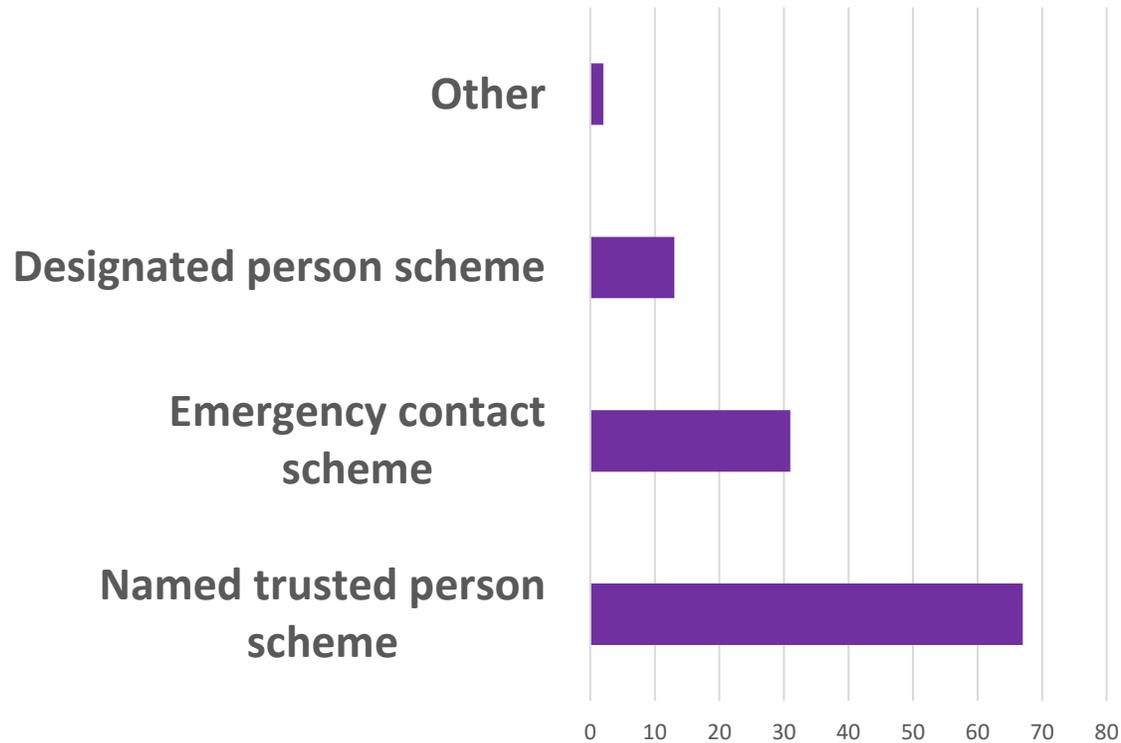

Named person may not be helpful

Wants to be contacted first

Lack of named person

# RESULTS

## *WHAT SHOULD THE SCHEME BE CALLED?*

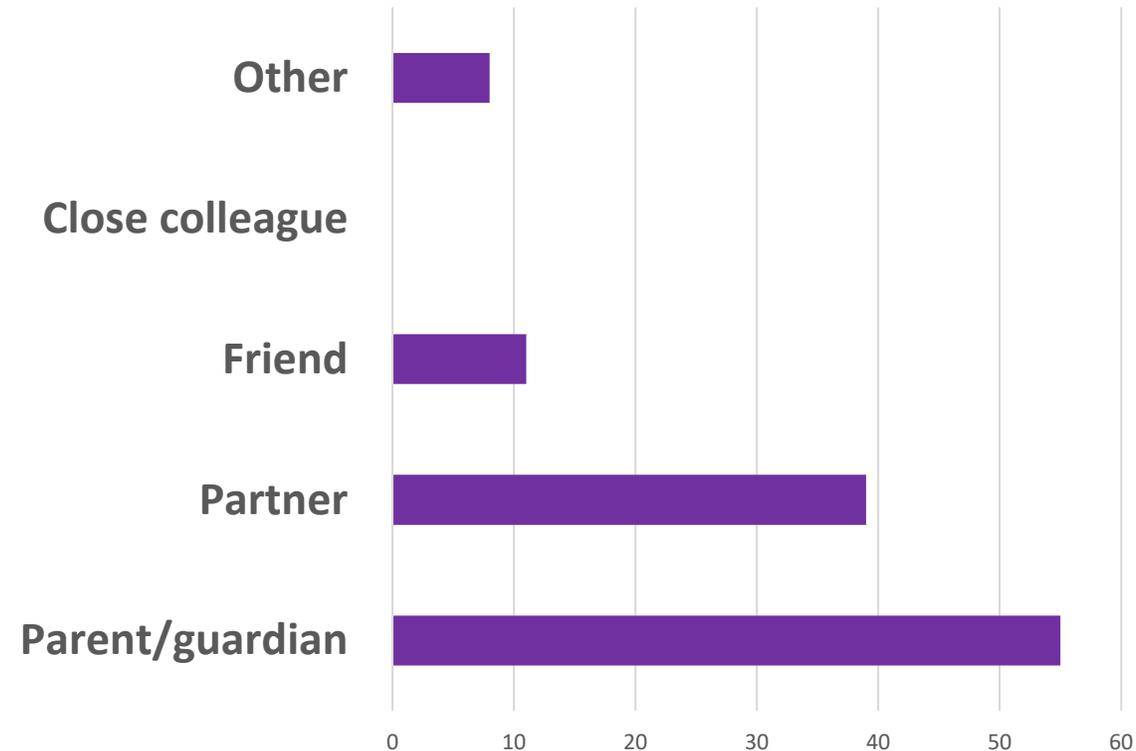

### *OTHER*

Unsure

“nobody i have nobody”

# RESULTS

*WHO WOULD BE THE BEST PERSON TO CONTACT?*

## *OTHER*

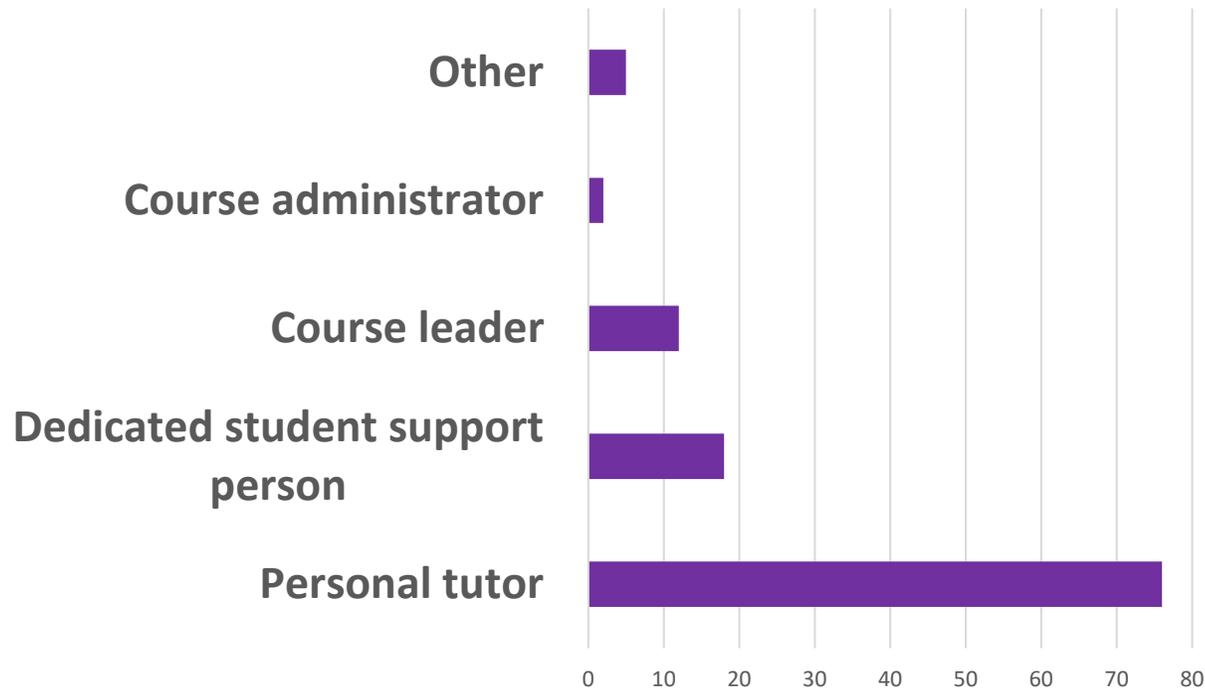

Allow more than one choice

Sibling

Did not agree with scheme

# RESULTS

## WHO SHOULD BE THE CONTACT PERSON?

### OTHER

Student choice

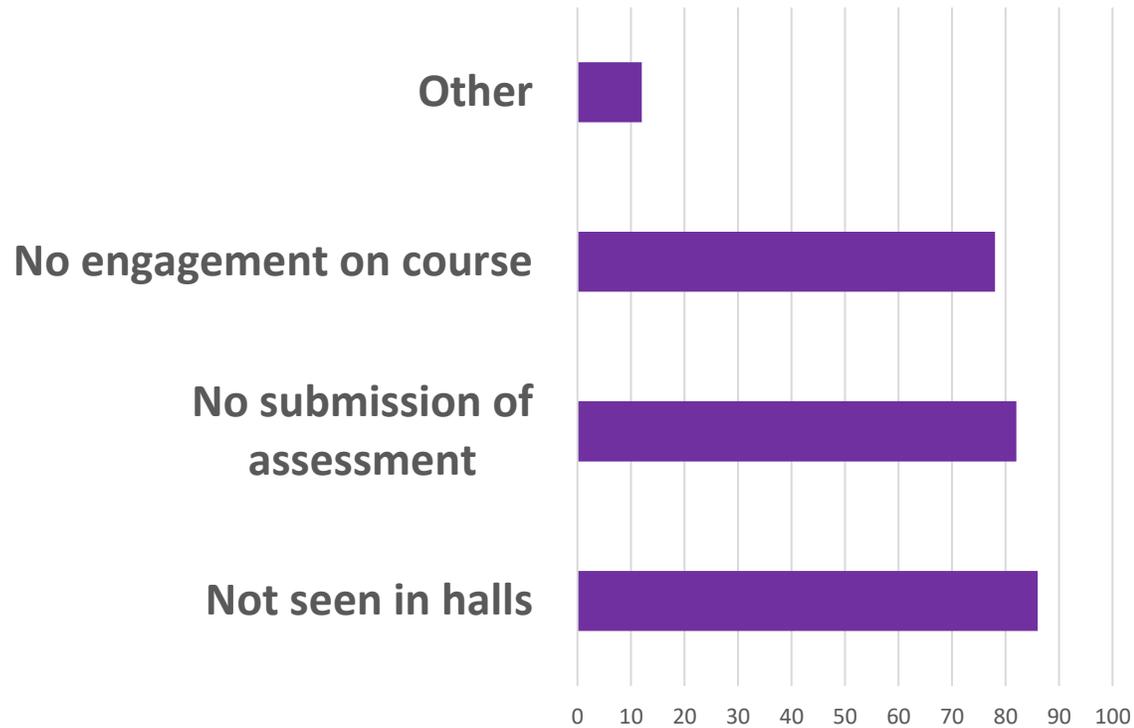

Any of the above

Mental health officer

Did not agree with scheme

# RESULTS

## *UNDER WHAT CIRCUMSTANCES SHOULD CONTACT BE MADE?*

### *OTHER*

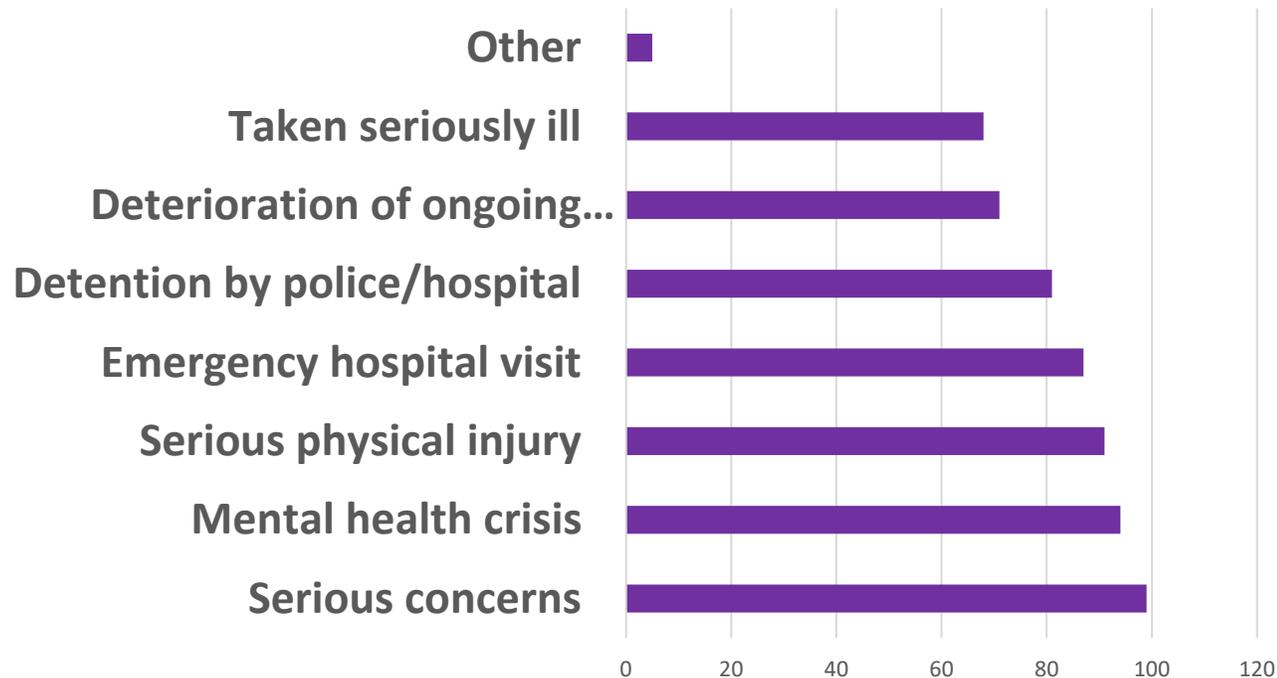

Taken ill/emergency on campus

Concerns raised by others

Combination of factors

# RESULTS

*UNDER WHAT CIRCUMSTANCES SHOULD CONTACT BE MADE, WITHOUT SPEAKING TO THE STUDENT FIRST?*

## *OTHER*

If risk to self or others

Incidents agreed upon with student

Student should always be contacted/permissions previously agreed

# RESULTS

## *OTHER SUGGESTIONS ON MONITORING STUDENT WELLBEING*

Staff should contact students

Frequent 1:1 check-ins

Meetings on-campus, not remotely

Reminder of support available

# NEXT STAGE

## *ON COURSE*

- Named Trusted Person scheme rolled out across BA (Hons) Applied Social Sciences and MSc Applied Psychology
- Feedback on this will be taken each semester
- Enhance student help-seeking behaviours
- Normalise support schemes and discussion of mental health
- Integrated self-directed programme
  - Use of existing online sources
  - Ongoing self-directed wellbeing exercises

## *PROJECT*

- Extend research and implementation across the University
